

PL-7008 · Day 1

Create Agents in Microsoft Copilot Studio

Welcome & Course Overview

Introductions and the shift from chatbots to agentic AI

Foundations of AI & Agents

The Power Platform, how AI works, and what makes an agent

Lab Ex01 · Wake Me Up Joke — build your first agent with a trigger and email tool

Prompting & Hallucination

Prompting techniques and why grounding matters

Lab Ex02 · What AI Does Best

Grounding Agents in Knowledge

RAG, embeddings, and enterprise knowledge sources

Lab Ex03 · CoralCare Assistant

Knowledge-Driven Agents

Turning documents into interactive experiences

Lab Ex04 · Quiz Maker

Accelerating Development

Building faster with Copilot Studio and M365 templates

Lab Ex05 · Using Templates

Autonomous Agents

Triggers, tools, scoring logic, and human-in-the-loop design

Lab Ex06 · Capstone: CoralCare Resume Screener

Wrap-Up

Governance, deployment, and releasing agents responsibly
